

# DanceWorks Kenora

## COVID-19 Health & Safety Plan

as of May 28, 2022

---

**Everyone entering DanceWorks Kenora must agree with, and follow, our COVID-19 Health and Safety Plan.**

This plan may change at any time - an up to date version will always be posted at the studio and at [danceworkskenora.com](http://danceworkskenora.com)

If you have any questions please contact the studio at [info@danceworkskenora.com](mailto:info@danceworkskenora.com) or by calling or texting 807-464-3666.

---

### **Illness & Attendance**

- If experiencing any symptoms dancers and staff should not attend in-person classes at the studio and should seek medical guidance and testing as recommended. Dancers and staff must follow guidance regarding return to activity after feeling unwell.
- Anyone that begins to develop symptoms while at the studio will be kept separated until their guardian or emergency contact can pick them up.
- Dancers that are unable to attend in person or who wish to do a make-up class may make arrangements to attend a class virtually instead.

### **Students**

- Food and beverage sharing is discouraged. Students should bring their own, clearly identified or labelled, water bottle and food/snacks (no peanuts).

### **Masks / Face Coverings**

- Masks are optional for dancers and instructors while inside the dance studio.

### **Lobby & Studio Access**

- Drop-off and pick-up only. The lobby, bathrooms, and studio will be limited to students, teachers, and any other staff.

### **Drop-off & Dismissal**

- Students will enter through the green studio door and will exit through the glass doors (on the art studio side of the building).
- Students will sanitize their hands when they enter and place their personal belongings in a bin. When class finishes students will carry their bin to the exit area.
- Please be mindful of our neighbouring businesses and their ability to use the parking lot when you park for drop-off and pick-up or if you are waiting in your vehicle during your dancer's class.

### **Cleaning**

- The studio will be cleaned regularly and any shared items will be cleaned after each use.
- The studio has a standalone HEPA air purifier as well as a UV air purifier in the HVAC system to help improve air quality. The HVAC filters will also be changed regularly and when possible, the studio door will be open to increase fresh air in the studio.
